

Thermo King Certified Pre-Owned Unit Program

The first OEM-offered program in the Transport Refrigeration Industry to offer validated, reconditioned, and manufacturer-warranted units.

Affordable Quality

Thermo King's Certified Pre-Owned (CPO) Program is an industry first. Never has an original equipment manufacturer (OEM) offered extended life to qualifying transport refrigeration and auxiliary power units through a certified program.

Thermo King's CPO units offer an economical alternative for customers' diverse needs - without sacrificing Thermo King reliability, performance, or warranty protection.

This certification badge indicates that a unit has been through the program and qualifies as a Thermo King Certified Pre-Owned Unit.

What makes a Thermo King CPO unit certified?

It meets strict eligibility requirements.

- Qualifying trailer units must have less than 23K engine run hours, qualifying APUs must have less than 10K engine run hours, and qualifying truck units must have less than 10K engine run hours.
- Engine condition inspected, verified, and approved.
- All units must pass an inspection to determine viability for successful reconditioning.

It has been reconditioned with genuine Thermo King parts by an authorized Thermo King dealer.

- CPO units must undergo the required refurbishing, parts replacement, and maintenance requirements as indicated by each CPO tier.

It is backed by a Thermo King manufacturer's warranty.

- Various tiers of coverage allow for flexibility to meet varying price point and coverage needs.
- Gain peace of mind and confidence in your used equipment and enjoy reduced maintenance and downtime.

The warranty is recognized and supported by the nationwide Thermo King authorized dealer network.

ELIGIBLE THERMO KING UNIT MODELS INCLUDE:

**SB 130/230/330 and
Spectrum SB**
(less than 23K engine hours)

**Precedent® S-600 /
S-610M / S-610DE
Precedent C-600 /
C-600M**
(less than 23K engine hours)

**TriPac® Evolution
Auxiliary Power**
(less than 10K engine hours)

**T-890, T-1090 and
T-1090 Spectrum**
(less than 10K engine hours)

TRUs: SB 130/230/330 and Spectrum SB; Precedent S-600/S-610M/S-610DE and C-600/C-600M
